## Annual RTS 28 Best Execution Disclosures - 2020

### **Best Execution Obligation:**

Sculptor Capital Management Europe Limited (the “Firm”) is a member of the Sculptor Capital Management, Inc. Group (the “Group”) and acts as a sub-investment manager to a number of the Group’s investment funds and managed accounts clients (“Clients”). The Firm is authorised and regulated by the Financial Conduct Authority (“FCA”) and is an investment firm subject to the requirements of the FCA Rules that implement the Markets in Financial Instruments Directive and Regulation (“MiFID II”) including the order execution rules under the Regulatory Technical Standard 28 (“RTS 28”).

In order to comply with the above obligations, the Firm must take all sufficient steps to obtain the best possible result for its Clients, taking in to account the “execution factors” specified by MiFID II. It is the Firm’s policy that the Firm’s best execution obligations should be applied in a manner that takes in to account the different circumstances associated with the execution of orders related to particular Instrument Classes (as defined in the “MiFID II Rules”). For each Instrument Class included in this report we have set out the relative importance of each execution factor, although this may vary depending on the characteristics of a specific order.

In addition, the Firm is required to summarise and make public on its website on an annual basis, for each class of financial instrument in which it has traded, the top five Execution Venues where it executes orders, and the top five Brokers to which it transmits orders for execution, in terms of trading volumes, in the preceding calendar year, including information on the quality of execution obtained. This information will be published annually on the Firm’s website by 30 April each year.

This document is the Firm’s RTS 28 report for calendar year 2020, containing both quantitative and qualitative disclosures for each of the following Instrument Classes:

- Equities - Shares and Depositary Receipts: Tick size liquidity bands 5 and 6
- Equities - Shares and Depositary Receipts: Tick size liquidity bands 3 and 4
- Equities - Shares and Depositary Receipts: Tick size liquidity bands 1 and 2
- Debt Instruments: Bonds
- Debt Instruments: Money Market Instruments
- Interest Rate Derivatives: Futures and options admitted to trading on a trading venue
- Credit Derivatives: Other Credit Derivatives
- Structured Finance Instruments
- Equity Derivatives: Futures and Options Admitted to Trading on a Trading Venue
- Equity Derivatives: Swaps and Other Equity Derivatives
- Securitised Derivatives: Warrants and Certificate Derivatives
- Exchange Traded Products (Exchange Traded Funds, Exchange Traded Notes and Exchange Traded Commodities)
- Other Instruments

Disclosures are not provided for the remaining Instrument Classes specified in Annex I to the Commission Delegated Regulation as the Firm did not execute trades in those Instrument Classes in 2020.

### **Use of data / tools relating to quality of execution**

The Firm’s Compliance Officer performs regular monitoring of the quality of execution of trades executed by the Firm. The Firm utilises both external and internal monitoring tools and data in evaluating whether best execution has been achieved, taking into account the relevant execution factors for a given trade(s). The Firm reviews its Order Execution Policy and its order execution arrangements at least annually and whenever a material change occurs that affects the Firm’s ability to continue to obtain the best possible result for its clients on a consistent basis, in accordance with the MiFID II Rules. During 2020, the Firm did not contract directly with any Consolidated Tape Provider but is able to access market pricing data from a variety of third-party sources.

# Sculptor Capital Management Europe Limited

## Annual RTS 28 Best Execution Disclosures - 2020

### **Differentiation across client categories:**

The Firm gives effect to decisions to deal only on behalf of professional clients (as defined in the FCA Rules).

### **Close links, conflicts of interest and common ownership with respect to execution venues:**

The Firm may elect to route certain orders internally to trading desks within the Group in other geographical locations in order to achieve the best possible outcome for its Clients. Consequently, the Firm has included certain Group entities within its top five brokers for certain Instrument Classes, as required by the MiFID II Rules. For 2020, the only relevant Group entities for these purposes are Sculptor Capital LP and Sculptor Capital Management Hong Kong Limited.

The Firm has policies and procedures in place to identify and to prevent or manage conflicts of interest. In particular, employees or officers of the Firm may hold certain outside business interests, such as directorships, or shareholdings in service providers to the Group. The Firm has identified that such outside business interests or investments could cause a potential conflict of interest between the personal interest of the relevant Employee / director and the interests of the Group's Clients. The Group manages this potential conflict by maintaining and following a Code of Ethics Policy that requires employees and officers to obtain prior consent from Compliance for outside business interests or investments in service providers and to report all conflicts to Compliance. Compliance tracks all outside business interests and may put in place procedures specific to an employee in the event that there is a conflict.

### **Specific arrangements with execution venues regarding payments made or received, discounts, rebates or non-monetary benefits received:**

During 2020, and as permitted by the relevant regulations during this period, the Firm had Research Commission Charging Agreements in place with certain brokers under which Equity Transactions are effected at an agreed rate with the broker which includes an element for the costs of executing the trade and a proportion which is placed into a Research Payment Account ("RPA"). The Firm may pay certain suppliers from the RPA to remunerate providers of "permitted services" as defined by the FCA Rules. This is monitored by the Compliance Department.

Other than as described above, the Firm does not have any specific arrangements with execution venues regarding payments made or received, discounts, rebates or non-monetary benefits received to report. Minor non-monetary benefits may be received from time to time in the form of gifts and entertainment given by third party execution venues and brokers to the Firm's employees. However, the Firm has a Gift & Entertainment, Political Activity and Charitable Giving Policy that places limits on gifts and entertainment, and requires pre-approval and/or reporting of gifts and entertainment above specified thresholds. Compliance undertakes regular monitoring of this process and reviews the aggregate level of gifts and entertainment received by the Firm and its employees to prevent potential conflicts from arising.

### **Factors leading to a change in the list of execution venues listed in the Order Execution policy:**

In order to ensure best execution, the Firm participates in the Group-wide Best Execution Committee. Where it deems appropriate, as part of the Best Execution Review, the Firm will have regard to publicly available data on quality of execution obtained by Executing Brokers; however, the Firm will assess a broad range of factors when determining whether to make changes to the list of execution venues in its order execution policy. The Firm's traders will monitor the market for new Executing Brokers and Execution Venues that should be onboarded to improve the Firm's order execution capabilities. Inactive Executing Brokers and Execution Venues (i.e. those with limited to no trading activity) and those that no longer enable it to obtain on a consistent basis the best possible results for its clients are offboarded.

### **Choosing Between Order Placement and Direct Execution**

Once the Firm has made a decision to deal in a financial instrument on behalf of a client, the relevant Trader will decide whether to place the order with a Broker or to attempt to execute the transaction directly. This decision will be made having regard to the relative importance of the execution factors for the Instrument Class in question. For some Instrument Classes, there will be no choice.

# Sculptor Capital Management Europe Limited

## Annual RTS 28 Best Execution Disclosures - 2020

### Equities - Shares and Depository Receipts: Tick size liquidity bands 5 and 6 (from 2,000 trades per day)

Class of Instrument (Non-SFT)	Equities - Shares and Depository Receipts: Tick size liquidity bands 5 and 6		
Notification if < 1 average trade per business day in the previous year	Yes		
Top five BROKERS ranked in terms of trading volumes (descending order)		Proportion of volume traded as a percentage of total in that class	Proportion of orders executed as percentage of total in that class
Sculptor Capital Management Hong Kong Limited	549300WFFVFLMJEX3L40	90.55	86.47
Sculptor Capital LP	HL5S0Q35D58KLZHEX572	4.75	0.48
KEPLER CHEUVREUX	9695005EOZG9X8IRJD84	1.93	9.18
MAKOR SECURITIES LONDON LIMITED	549300IQTYC8XXQ6C338	1.72	2.9
BTIG HONG KONG LIMITED	213800BSSRYP2B397835	0.61	0.48

Class of Instrument (Non-SFT)	Equities - Shares and Depository Receipts: Tick size liquidity bands 5 and 6		
Notification if < 1 average trade per business day in the previous year	Yes		
Top five VENUES ranked in terms of trading volumes (descending order)		Proportion of volume traded as a percentage of total in that class	Proportion of orders executed as percentage of total in that class
CREDIT SUISSE SECURITIES (EUROPE) LTD	DL6FFRRLF74S01HE2M14	52.31	42.86
GOLDMAN SACHS INTERNATIONAL	W22LROWP2IHZNBB6K528	23.73	14.29
HSBC BANK PLC	MP6I5ZYBZEU3UXPYFY54	19.8	28.57
JEFFERIES INTERNATIONAL LTD	S5THZMDUJCTQZBTRVI98	4.17	14.29

### Execution Factors

Price and transaction cost will usually be the most important execution factors. In appropriate circumstances, the Trader may ascribe the most importance to an execution factor other than price/cost.

In certain circumstances (for example within a convertible arbitrage strategy or certain credit strategies) a bond may be traded simultaneously with another instrument (most commonly with an equity or a benchmark bond) and with the same broker in order to ensure the optimal hedging result (these are commonly referred to as “package trades”). For such trades, the Trader will seek to obtain the best possible result in respect of the overall package trade and select the most important execution factor accordingly.

Based on the Firm’s best execution monitoring during 2020 (as described above under ‘Use of data / tools relating to quality of execution’), and taking into account the relevant execution factors for a given trade(s), the Firm is satisfied that it achieved best execution for this Instrument Class.

MAKOR SECURITIES LONDON LIMITED	549300IQTYC8XXQ6C338	3.39	2.5

### Execution Factors

For smaller orders, the Trader will on many occasions consider that price is the most important execution factor. Other execution factors are permitted to be taken into account at the discretion of the relevant Trader as is appropriate for the size and nature of the relevant order (and one or more of these other factors may displace price as the most important factor). In appropriate circumstances, the Trader may ascribe the most importance to an execution factor other than price/cost.

In certain circumstances (for example within a convertible arbitrage strategy or certain credit strategies) a bond may be traded simultaneously with another instrument (most commonly with an equity or a benchmark bond) and with the same broker in order to ensure the optimal hedging result (these are commonly referred to as “package trades”). For such trades the Trader will seek to obtain the best possible result in respect of the overall package trade and select the most important execution factor accordingly.

Based on the Firm’s best execution monitoring during 2020 (as described above under ‘Use of data / tools relating to quality of execution’), and taking into account the relevant execution factors for a given trade(s), the Firm is satisfied that it achieved best execution for this Instrument Class.

JEFFERIES INTERNATIONAL LTD	S5THZMDUJCTQZBTRVI98	18	6.56
MAKOR SECURITIES LONDON LIMITED	549300IQTYC8XXQ6C338	12.37	21.31
CREDIT SUISSE SECURITIES (EUROPE) LTD	DL6FFRRLF74S01HE2M14	9.02	8.2

### Execution Factors

Depending on the available liquidity, for smaller orders, the Trader will on many occasions consider that price is the most important execution factor. Other execution factors are permitted to be taken into account at the discretion of the relevant Trader as is appropriate for the size and nature of the relevant order (and one or more of these other factors may displace price as the most important factor). Relative to the other two equity liquidity bands, the Trader may be more likely to ascribe the most importance to an execution factor other than price/cost to transactions falling within this liquidity band.

In certain circumstances (for example within a convertible arbitrage strategy or certain credit strategies) a bond may be traded simultaneously with another instrument (most commonly with an equity or a benchmark bond) and with the same broker in order to ensure the optimal hedging result (these are commonly referred to as “package trades”). For such trades the Trader will seek to obtain the best possible result in respect of the overall package trade and select the most important execution factor accordingly.

Based on the Firm’s best execution monitoring during 2020 (as described above under ‘Use of data / tools relating to quality of execution’), and taking into account the relevant execution factors for a given trade(s), the Firm is satisfied that it achieved best execution for this Instrument Class.

DEUTSCHE BANK AG	7LTFWFZYICNSX8D621K86	8.77	6.33
BARCLAYS BANK PLC	G5GSEF7VJP5I7OUK5573	5.06	6.33

### Execution Factors

Certainty of execution (i.e. availability of liquidity) and price will often be the most important execution factors, with speed of execution and minimisation of market impact as important secondary considerations. In certain circumstances there may be very limited sources of liquidity for the bonds where there may, in effect, be no or little choice of Execution Venue.

In certain circumstances (for example within a convertible arbitrage strategy or certain credit strategies) a bond may be traded simultaneously with another instrument (most commonly with an equity or a benchmark bond) and with the same broker in order to ensure the optimal hedging result (these are commonly referred to as “package trades”). For such trades the Trader will seek to obtain the best possible result in respect of the overall package trade and select the most important execution factor accordingly.

For OTC swap transactions which have been given up from a broker to an ISDA counterparty, the relevant ISDA counterparty has been classified as the venue.

Based on the Firm’s best execution monitoring during 2020 (as described above under ‘Use of data / tools relating to quality of execution’), and taking into account the relevant execution factors for a given trade(s), the Firm is satisfied that it achieved best execution for this Instrument Class.

Top five VENUES ranked in terms of trading volumes (descending order)		Proportion of volume traded as a percentage of total in that class	Proportion of orders executed as percentage of total in that class
MAKOR SECURITIES LONDON LIMITED	549300IQTYC8XXQ6C338	100	66.67
DEUTSCHE BANK AG	7LTWFZYICNSX8D621K86	0	33.33

### Execution Factors

For smaller orders, the Trader will on many occasions consider that price is the most important execution factor. Other execution factors are permitted to be taken into account at the discretion of the relevant Trader as is appropriate for the size and nature of the relevant order (and one or more of these other factors may displace price as the most important factor).

Based on the Firm's best execution monitoring during 2020 (as described above under 'Use of data / tools relating to quality of execution'), and taking into account the relevant execution factors for a given trade(s), the Firm is satisfied that it achieved best execution for this Instrument Class. In particular, the Firm is satisfied that best execution was achieved for this Instrument Class. The Firm is also satisfied that best execution was achieved using a small number of venues given the low volume of trades executed in this Instrument Class.

### Exchange Traded Products (Exchange Traded Funds, Exchange Traded Notes and Exchange Traded Commodities)

Class of Instrument (Non-SFT)	Exchange Traded Products (Exchange Traded Funds, Exchange Traded Notes and Exchange Traded Commodities)		
Notification if < 1 average trade per business day in the previous year	Yes		
Top five BROKERS ranked in terms of trading volumes (descending order)		Proportion of volume traded as a percentage of total in that class	Proportion of orders executed as percentage of total in that class
Sculptor Capital LP	HL5S0Q35D58KLZHEX572	100	100

### Execution Factors

The relative importance of execution factors will depend on the specific nature of the instrument being traded in each instance. Based on the Firm's best execution monitoring during 2020 (as described above under 'Use of data / tools relating to quality of execution'), and taking into account the relevant execution factors for a given trade(s), the Firm is satisfied that it achieved best execution for this Instrument Class (rights issues).

### Other Instruments

Class of Instrument (Non-SFT)	Other Instruments		
Notification if < 1 average trade per business day in the previous year	Yes		
Top five BROKERS ranked in terms of trading volumes (descending order)		Proportion of volume traded as a percentage of total in that class	Proportion of orders executed as percentage of total in that class
JPMORGAN CHASE BANK, NA	7H6GLXDRUGQFU57RNE97	100	100

Class of Instrument (Non-SFT)	Other Instruments		
Notification if < 1 average trade per business day in the previous year	Yes		
Top five VENUES ranked in terms of trading volumes (descending order)		Proportion of volume traded as a percentage of total in that class	Proportion of orders executed as percentage of total in that class
CREDIT SUISSE SECURITIES EUROPE LIMITED	DL6FFRRLF74S01HE2M14	38.79	41.67
BNP PARIBAS SA	R0MUWSFPU8MPRO8K5P83	20.91	9.31
BANK OF NOVA SCOTIA	L3I9ZG2KFGXZ61BMYR72	11.63	2.94
JEFFERIES FINANCIAL PRODUCTS LLC	549300VTTUT4EQ1V6W27	9.53	7.84
UBS AG LB	BFM8T61CT2L1QCCEMIK50	4.91	6.37

### Execution Factors

The relative importance of execution factors will depend on the specific nature of the instrument being traded in each instance. Based on the Firm's best execution monitoring during 2020 (as described above under 'Use of data / tools relating to quality of execution'), and taking into account the relevant execution factors for a given trade(s), the Firm is satisfied that it achieved best execution for this Instrument Class (rights issues). For OTC swap transactions which have been given up from a broker to an ISDA counterparty, the relevant ISDA counterparty has been classified as the venue. The Firm is also satisfied that best execution was achieved using a small number of brokers given the low volume of trades executed in this Instrument Class.

### Securities Financing Transactions

Class of Instrument (Non-SFT)	Securities Financing Transactions		
Notification if < 1 average trade per business day in the previous year	No		
Top five VENUES ranked in terms of trading volumes (descending order)		Proportion of volume traded as a percentage of total in that class	Proportion of orders executed as percentage of total in that class
CREDIT SUISSE SECURITIES EUROPE LIMITED	DL6FFRRLF74S01HE2M14	42.56	14.36
CREDIT SUISSE INTERNATIONAL	E58DKGMJYYYJLN8C3868	39.89	32.90
